COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The Examiner indicates:

... [I]t is well known in the semiconductor manufacturing arts to use an identification code to store test results for an integrated circuit device. However, the storing of a reliability testing flag associated with a unique identification code of each integrated circuit device of the plurality of integrated circuit devices, wherein the integrated circuit devices are sorted based on said flag and further

reliability testing is performed based on said flag renders the invention novel and non-obvious over the prior art.

Applicants concur with the reasons as stated by the Examiner insofar as they comprise a summary, and are exemplary and not limiting. However, the independent claims as allowed include other and different language than that specified by the Examiner, and the allowed dependent claims include other and further features and elements. Accordingly, the scope of the claims must be determined from the literal language of each as a whole, as well as equivalents thereof.
